

Boyer Norbright 70

Anwendung: Newspapers, direct mail, free-sheets, directories, supplements, inserts/flyers, magazines, books

The Norbright range offers higher brightness properties and an enhanced printed image compared to newsprint. These products are especially well suited to cold set web offset, although they can also be used for heat set.

The paper achieves its higher performance characteristics through the use of modern, twin wire paper machines and enhanced thermomechanical pulping processes.

Grundlegende Merkmale	ISO			
Flächenbezogene Masse	(ISO 536)	(g/m ²)	48.8	52
