

# Boyer Norstar

**Uso finale:** Newspapers, direct mail, free-sheets, directories, supplements, inserts/flyers, magazines, books

Norstar has been specifically developed to assist the printer to maximise the cold set web offset quality.

As a result of reduced dot gain and improved ink hold-out, half-tone reproduction is clear and sharp; it can lead to a cold set web offset printing result that approximates that of heat set web offset.

Proprietà	ISO			
Grammatura	(ISO 536)	(g/m <sup>2</sup> )	52	55
Spessore	(ISO 534)	(µm)	81	86
